

**Hiya,
I'm Dusty
the Duck! In
these coloring
pages we'll
learn more
about being a
duck!**

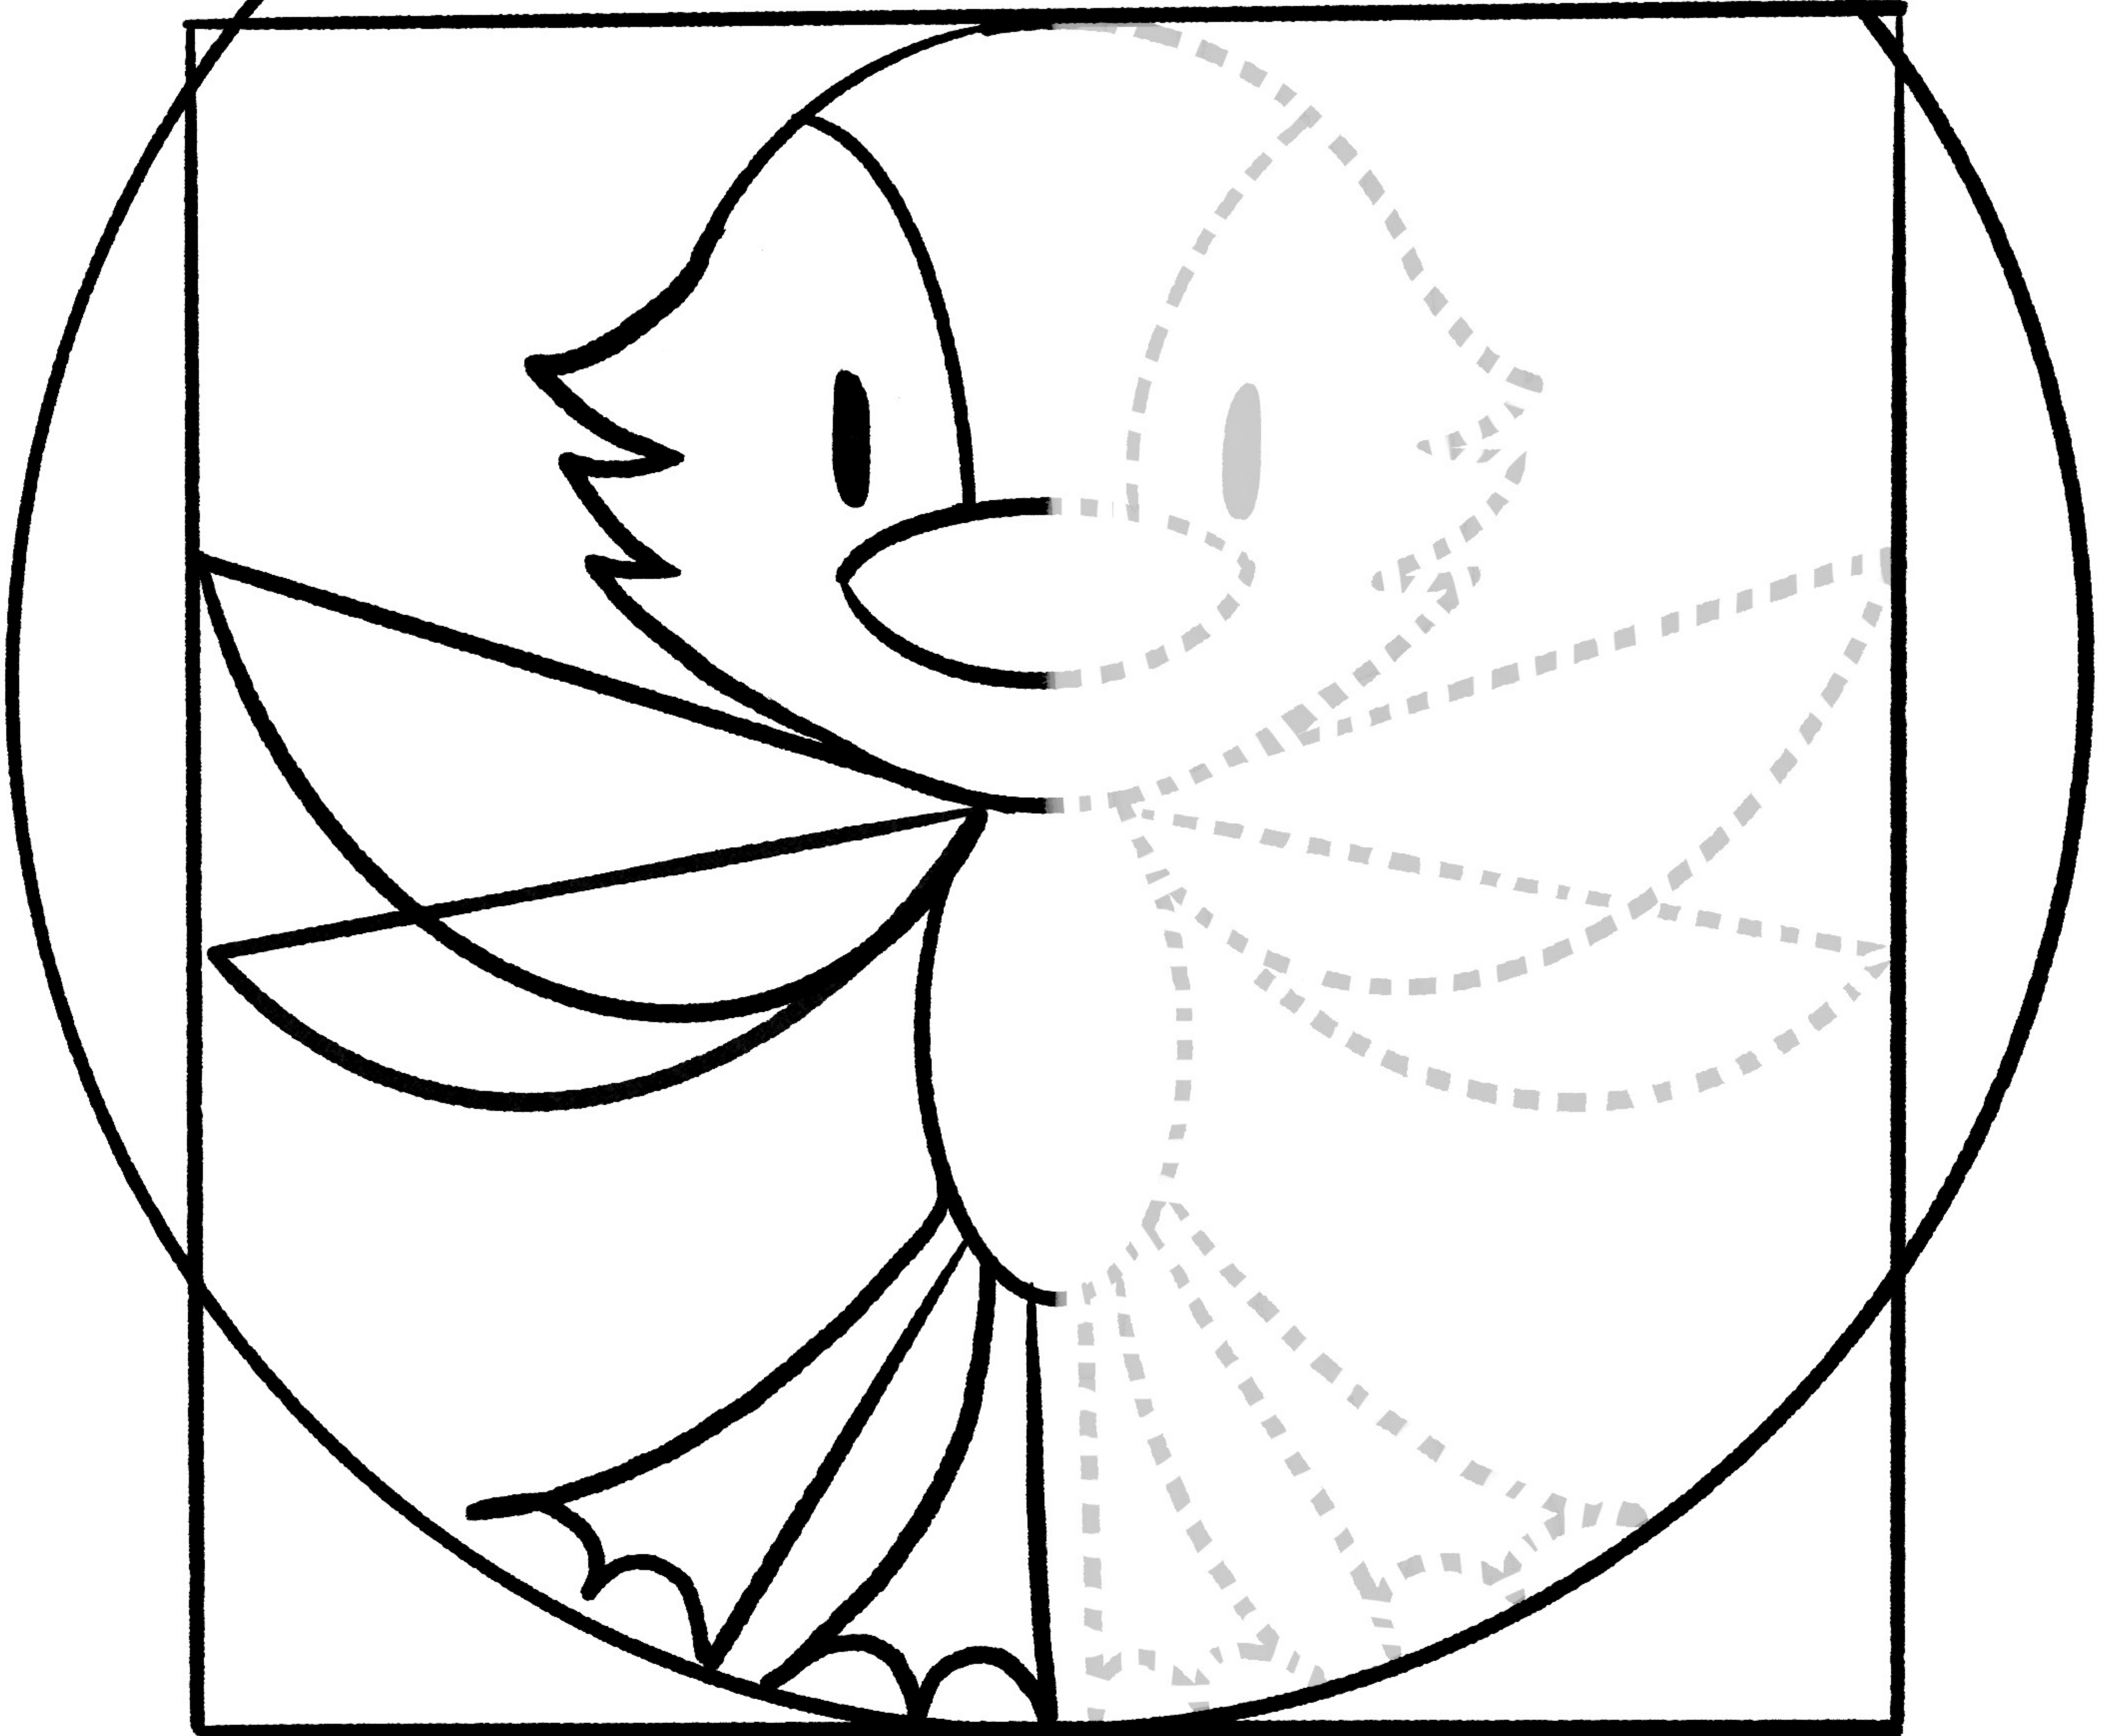

- Beaks and Feet are Yellow : Brights beaks and feet means a healthy duck!**
- Dad's Head is Green : These feathers shine in the sun!**
- Mom's Feathers are Brown : These feathers help camouflage or blend in with nature!**

Connect the dots and draw a LIFESIZE duck foot! See how it compares to the size of your hand?

Vitruvian Duck

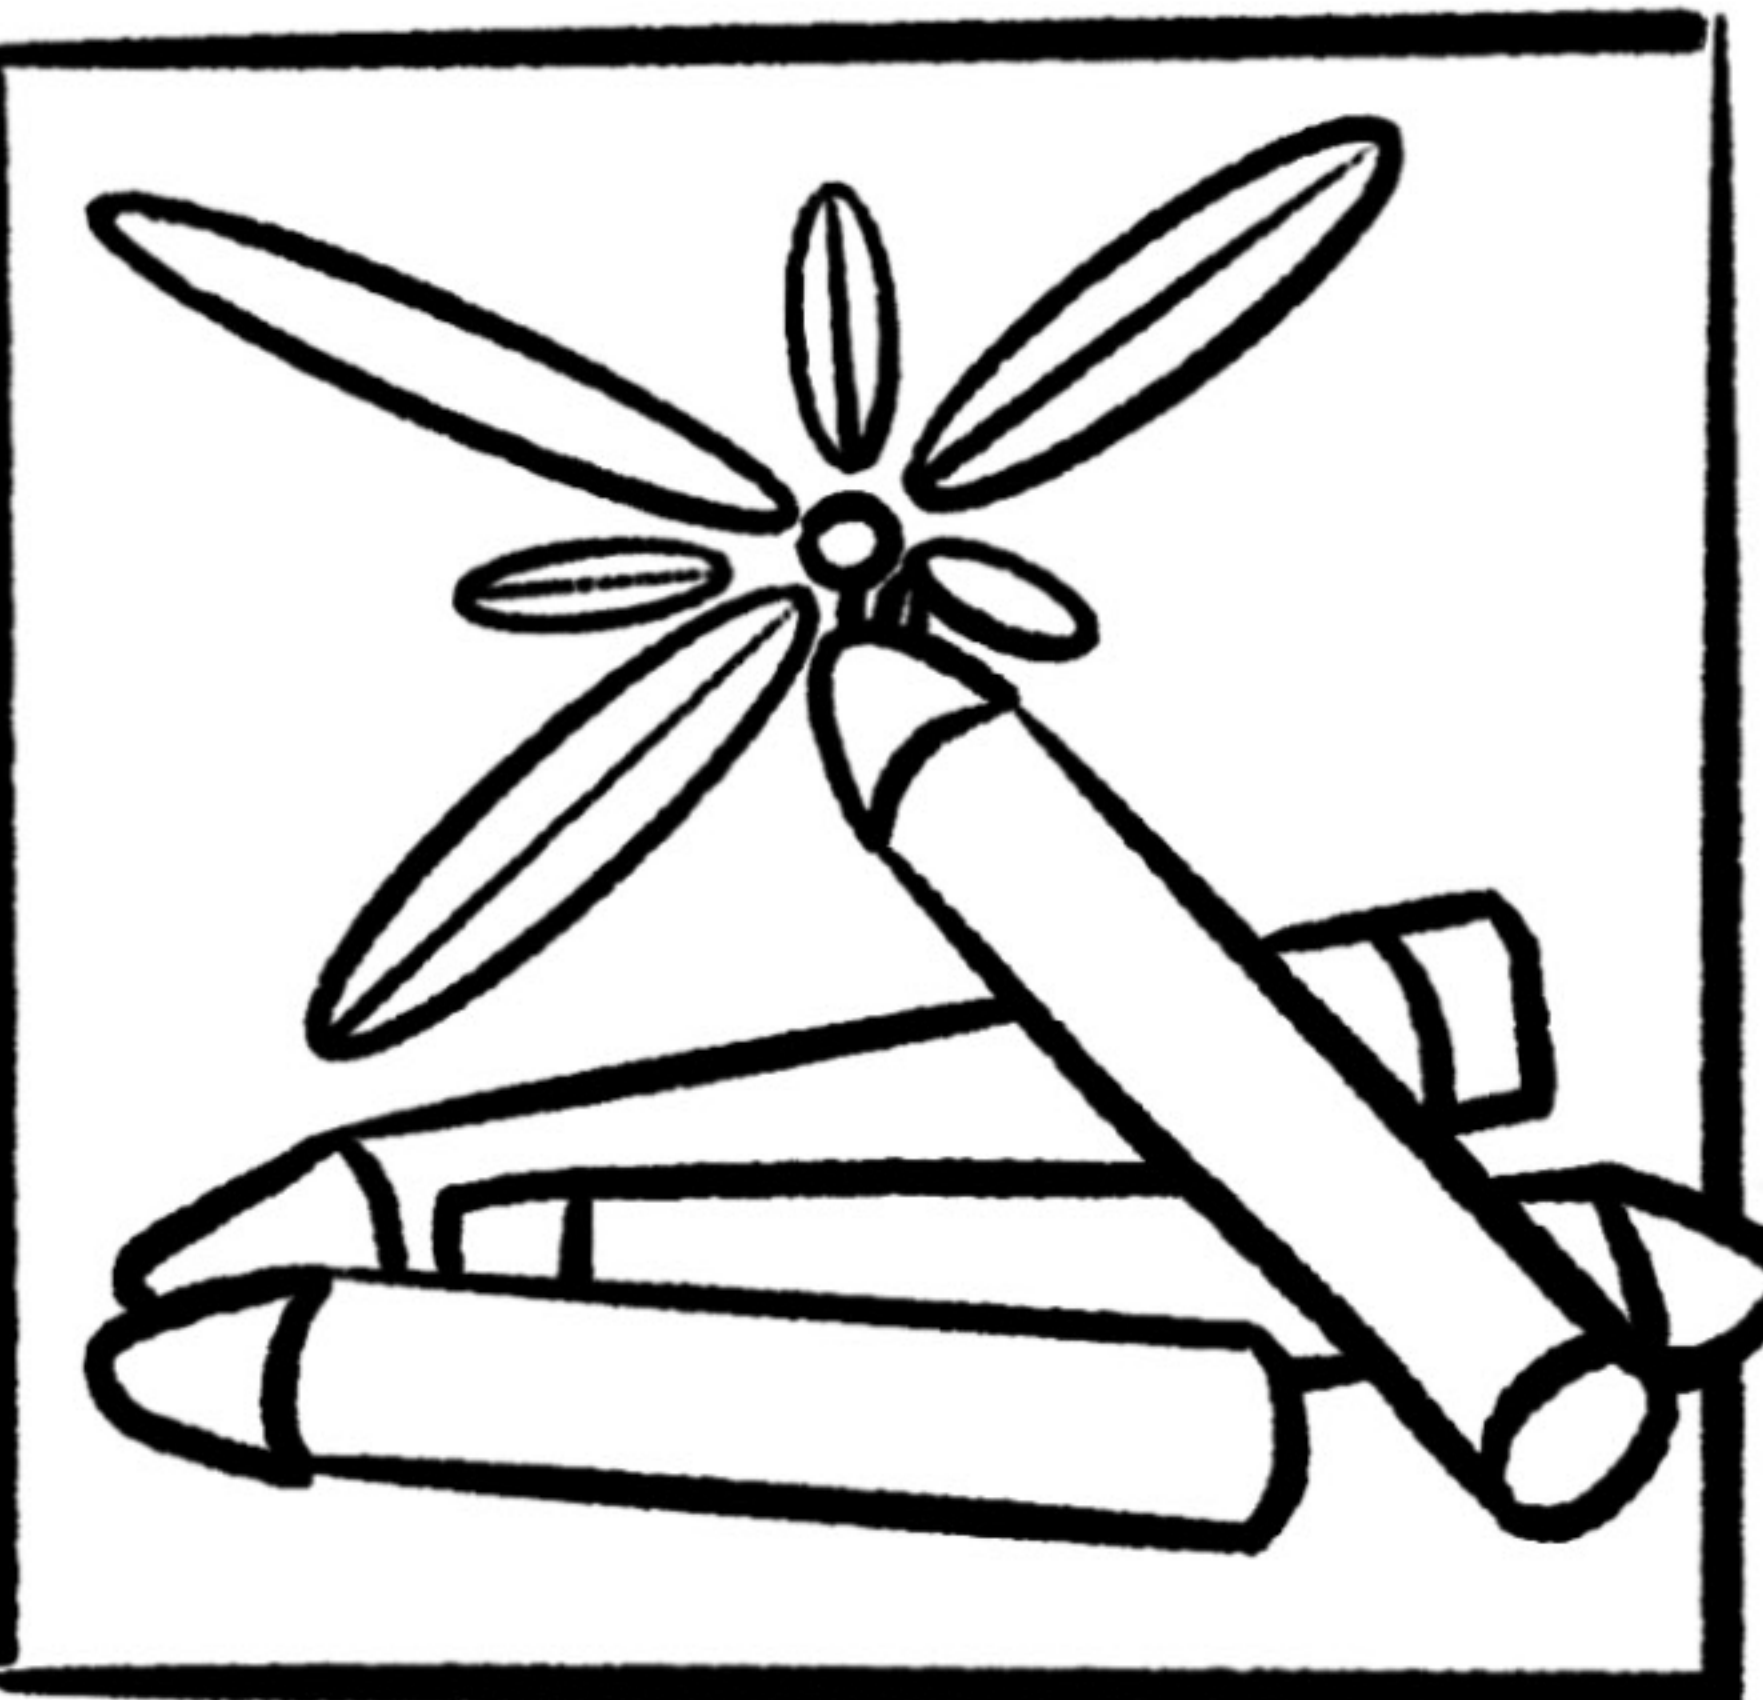

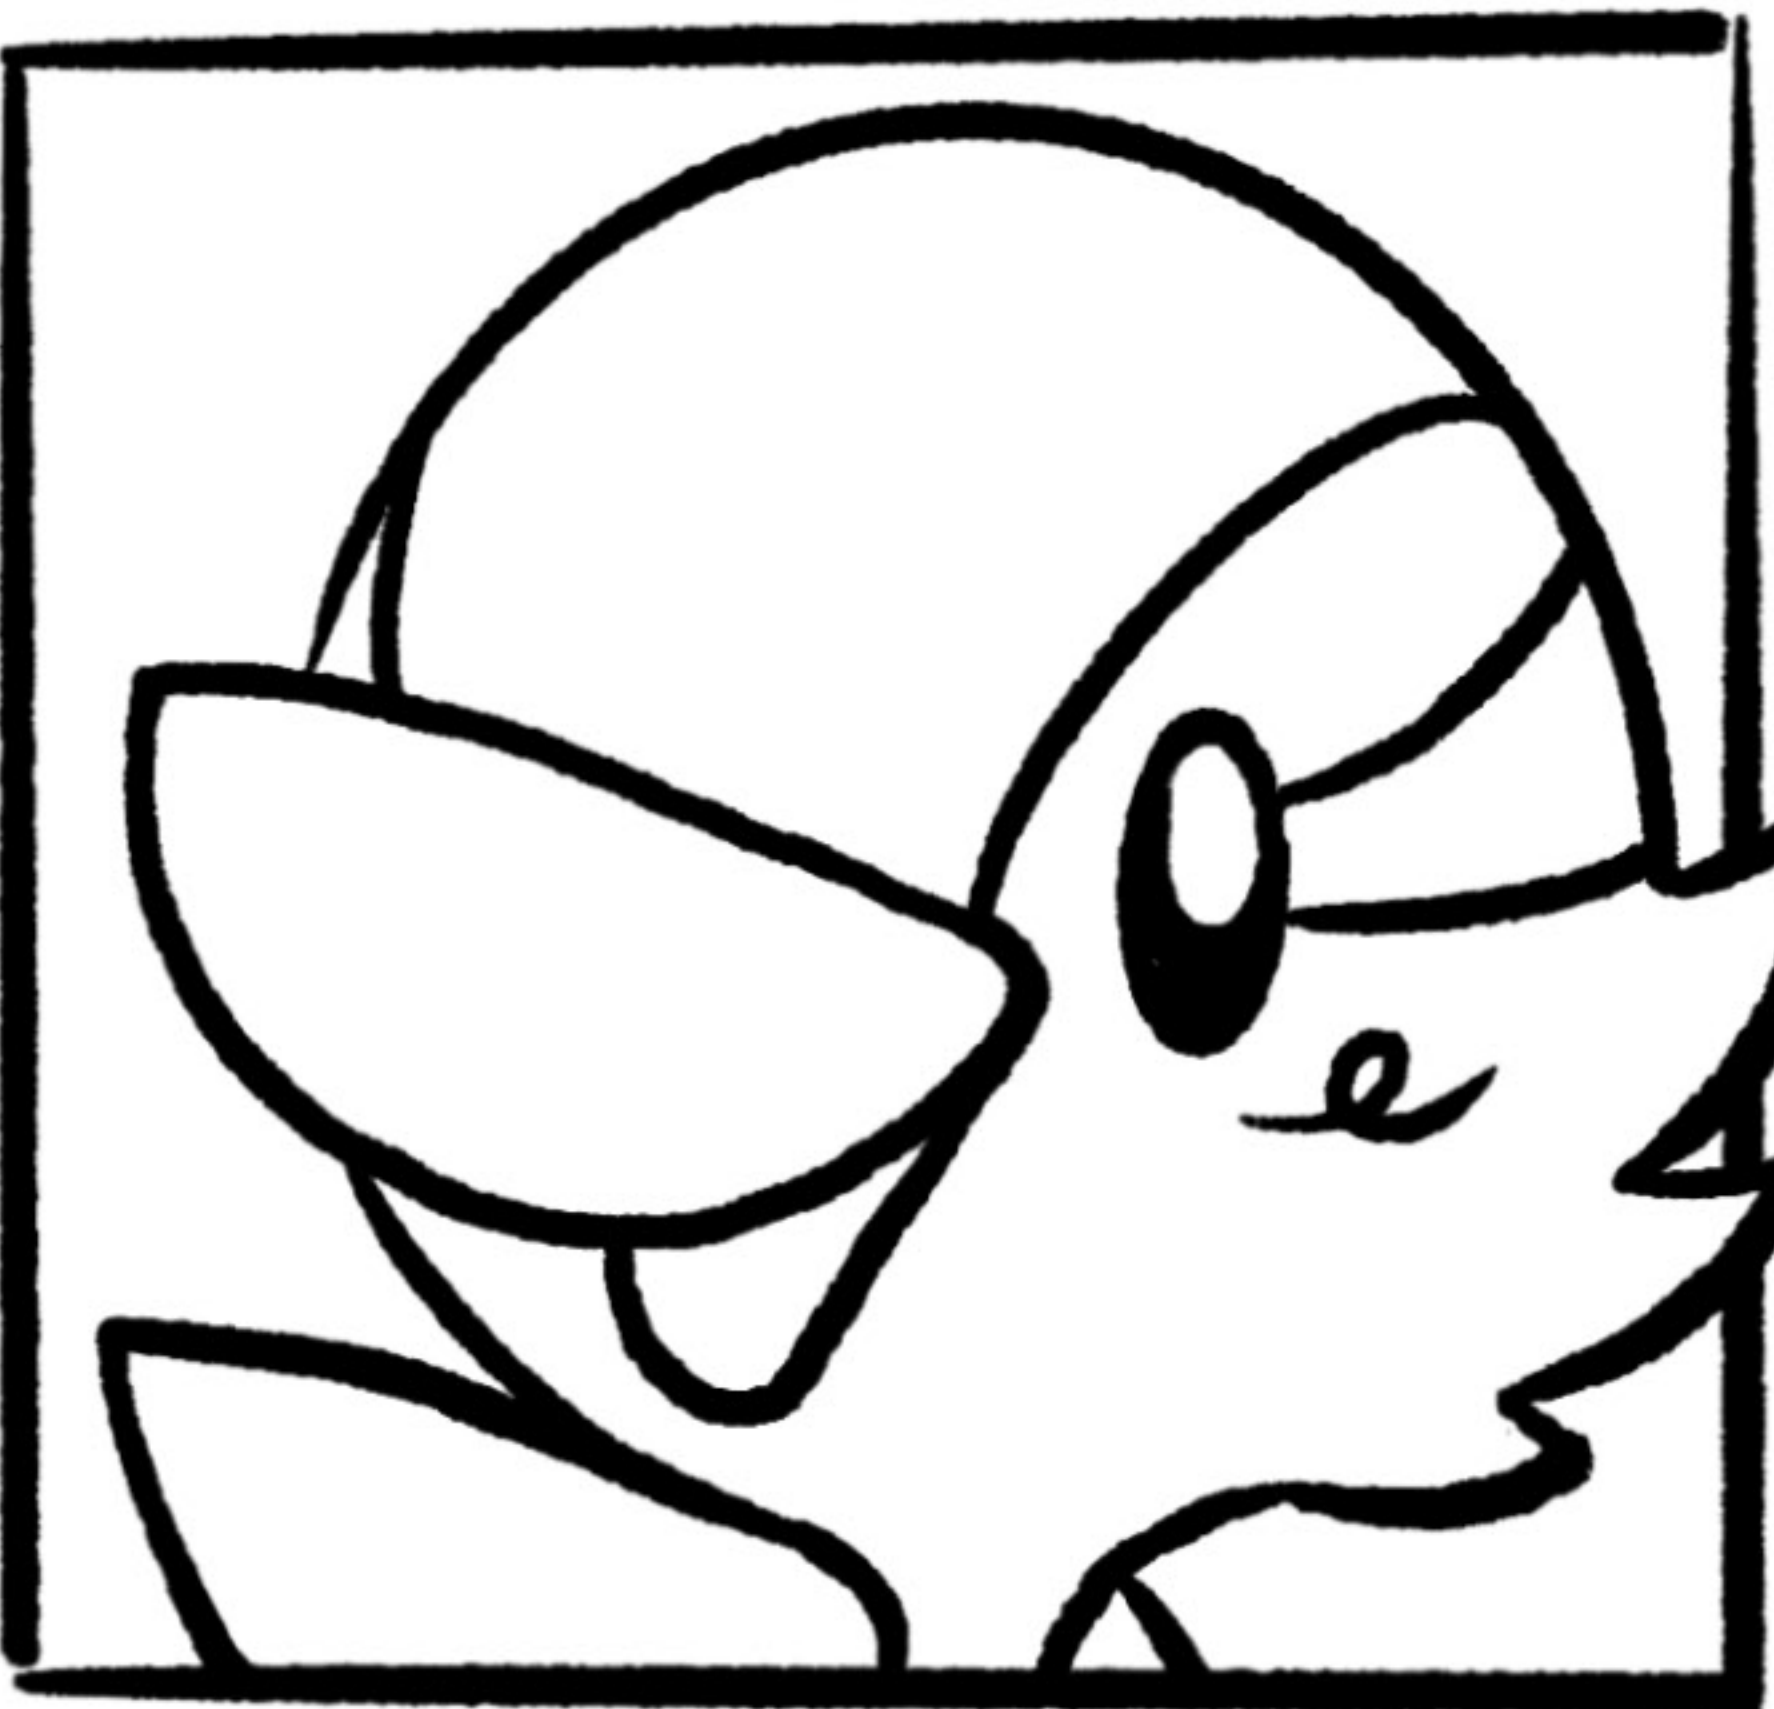

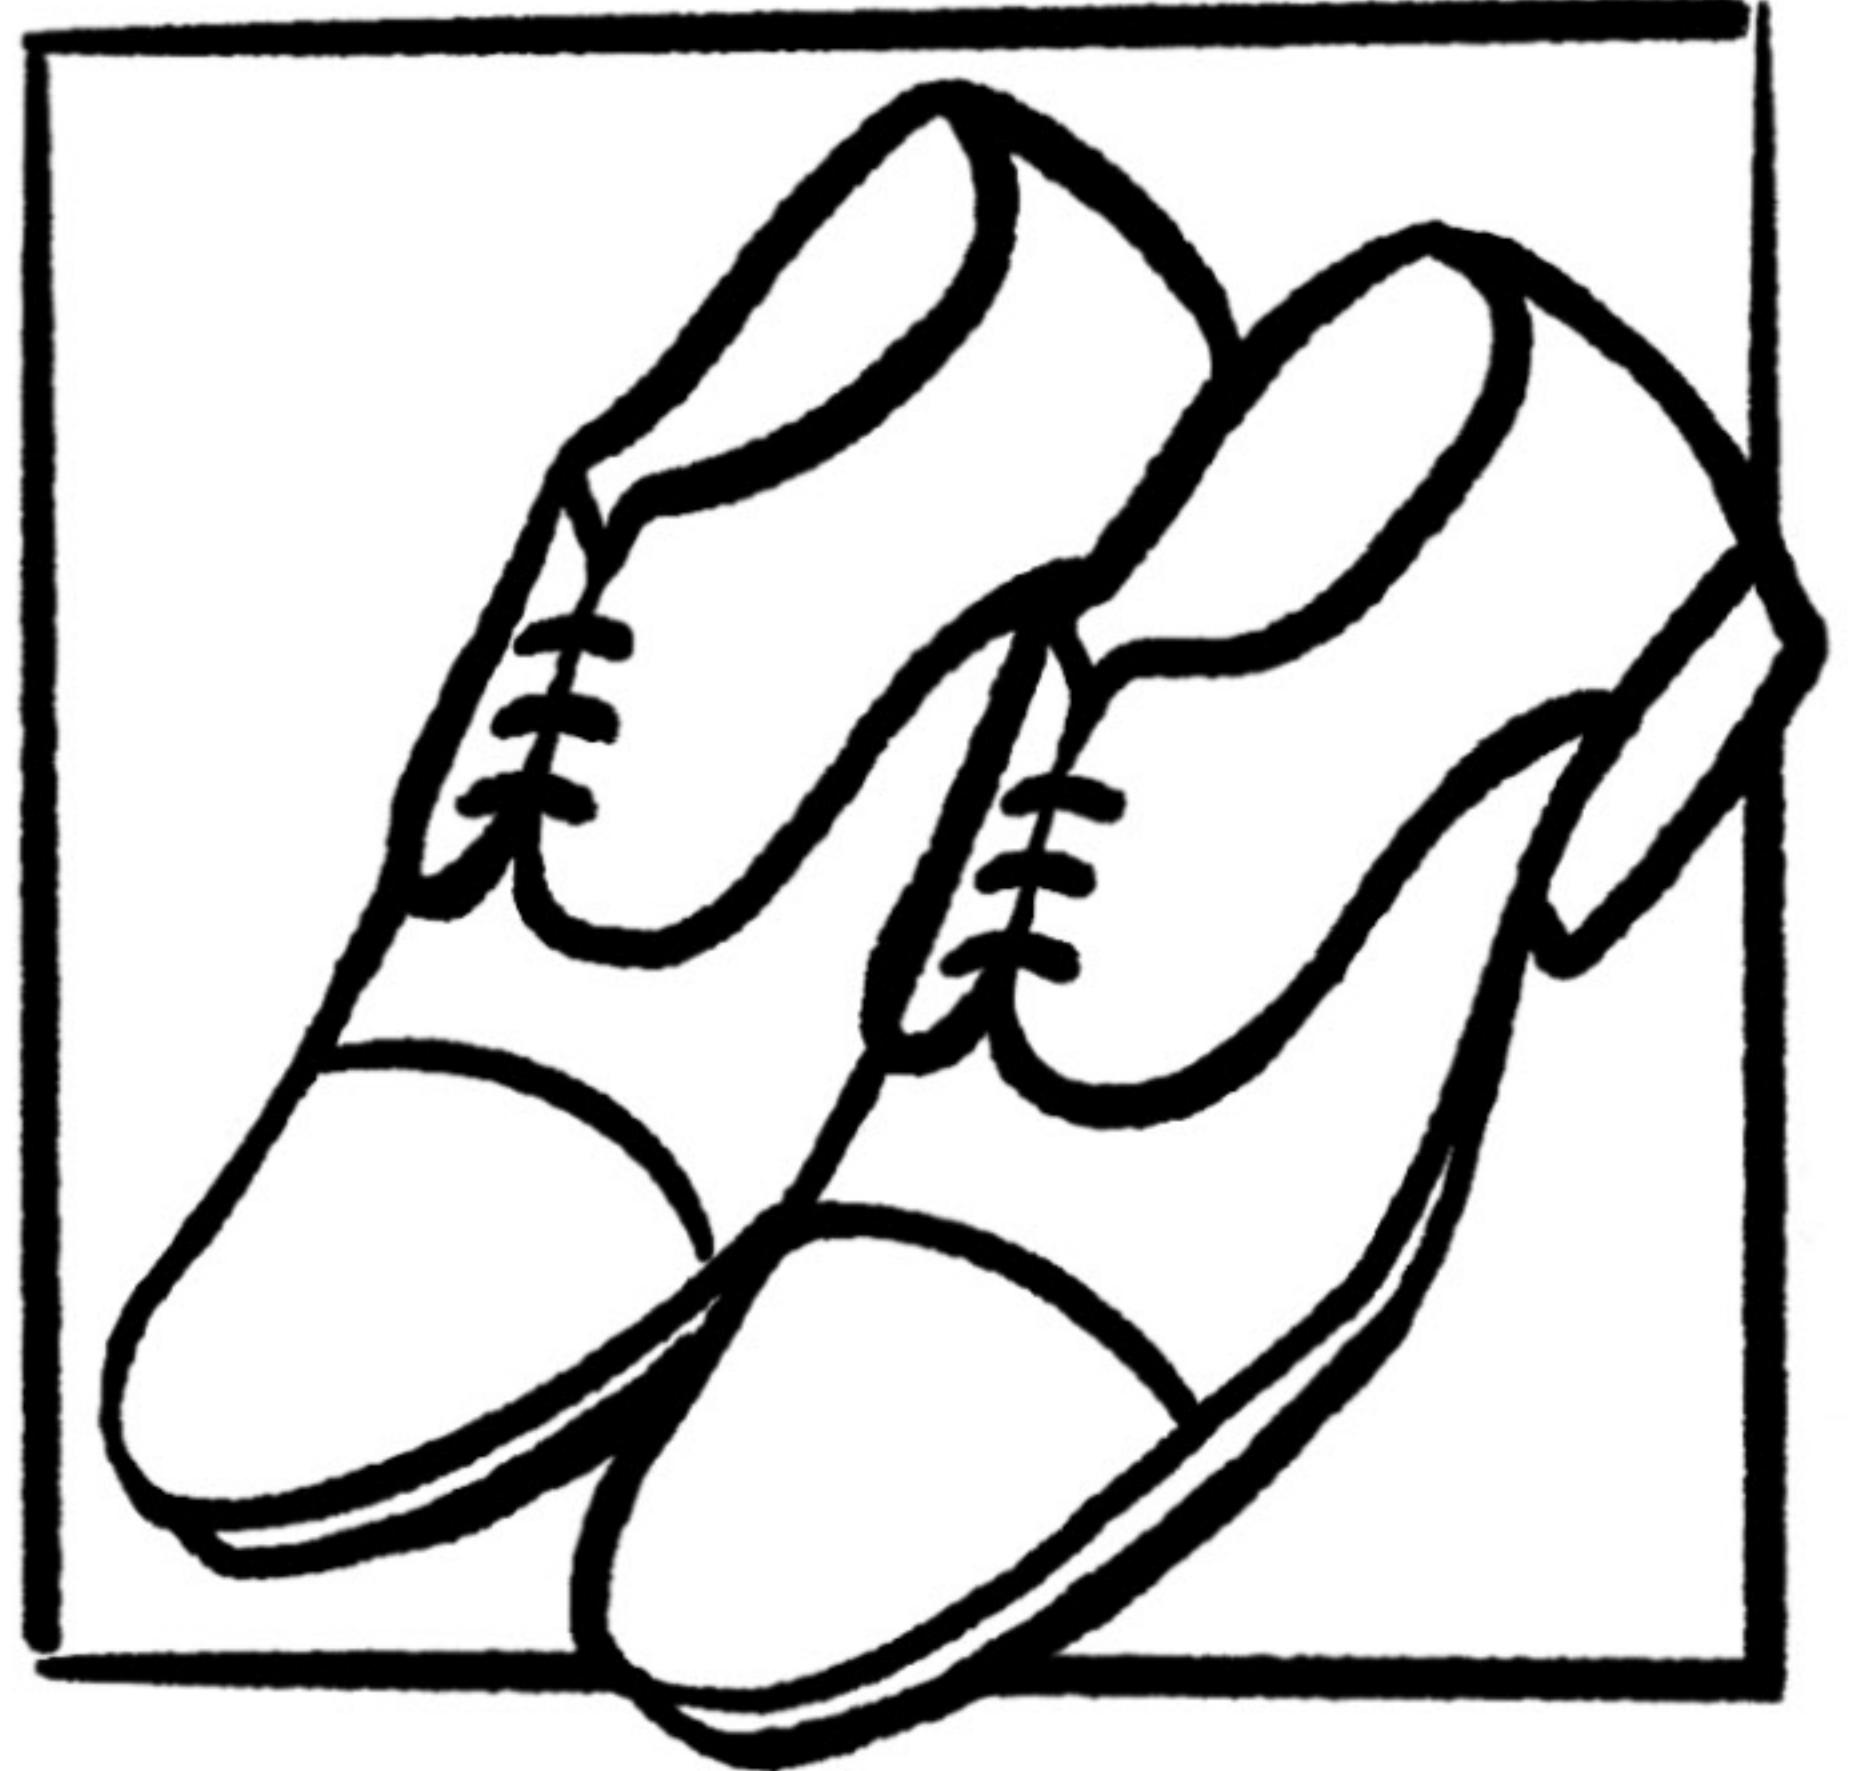

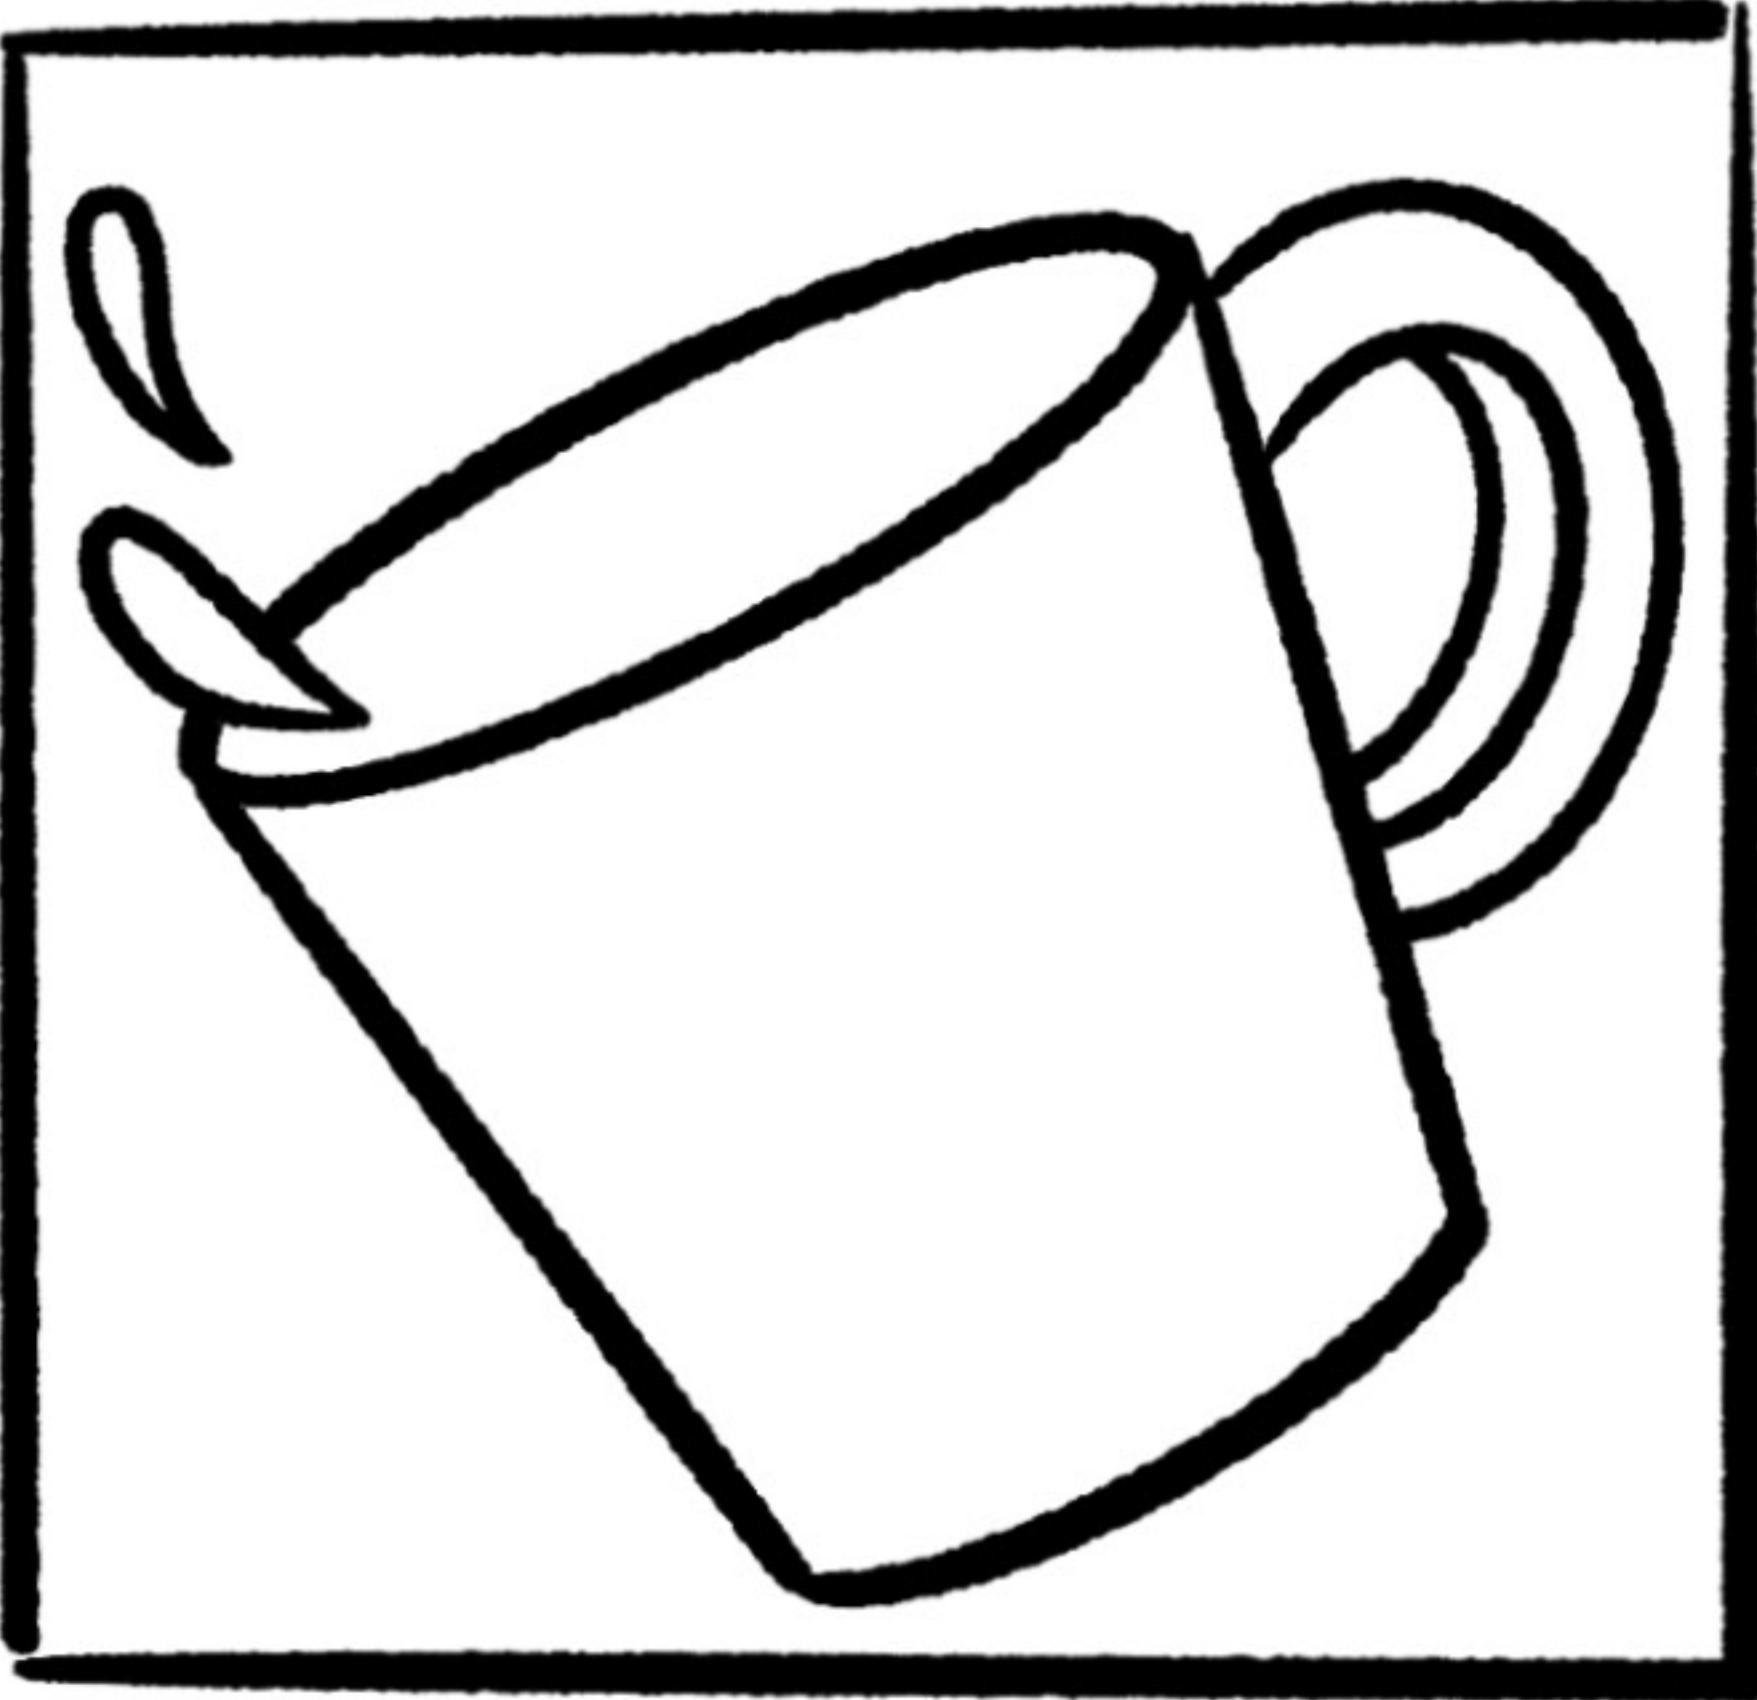

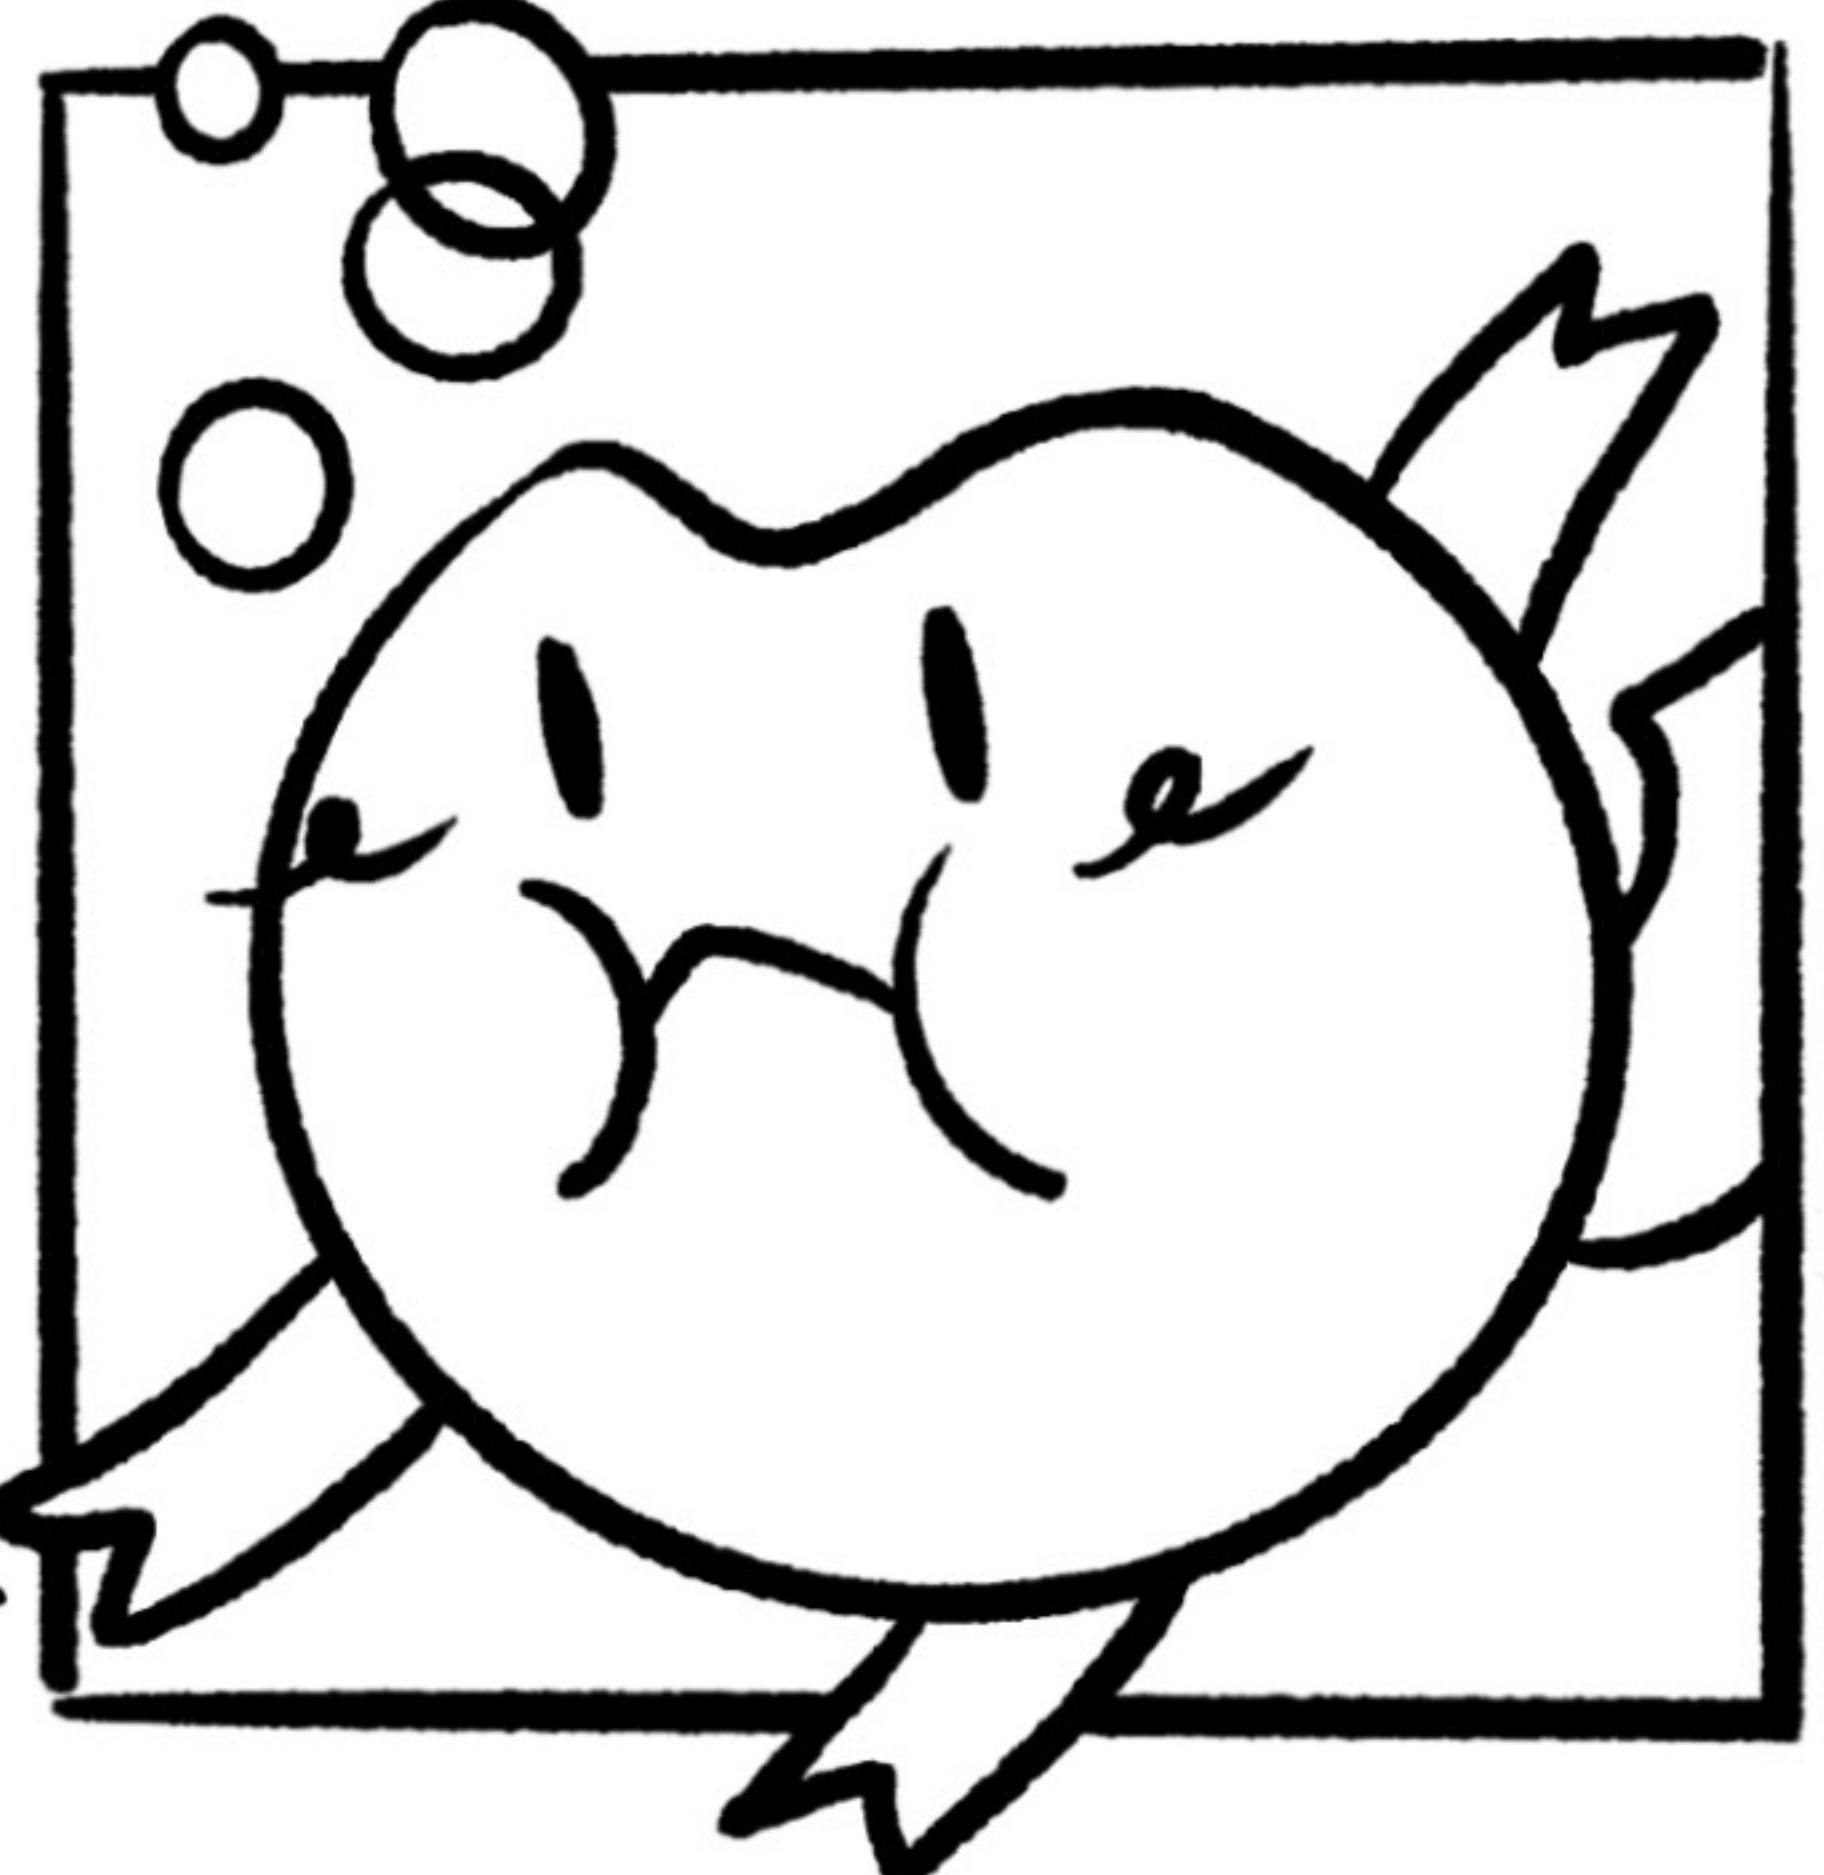

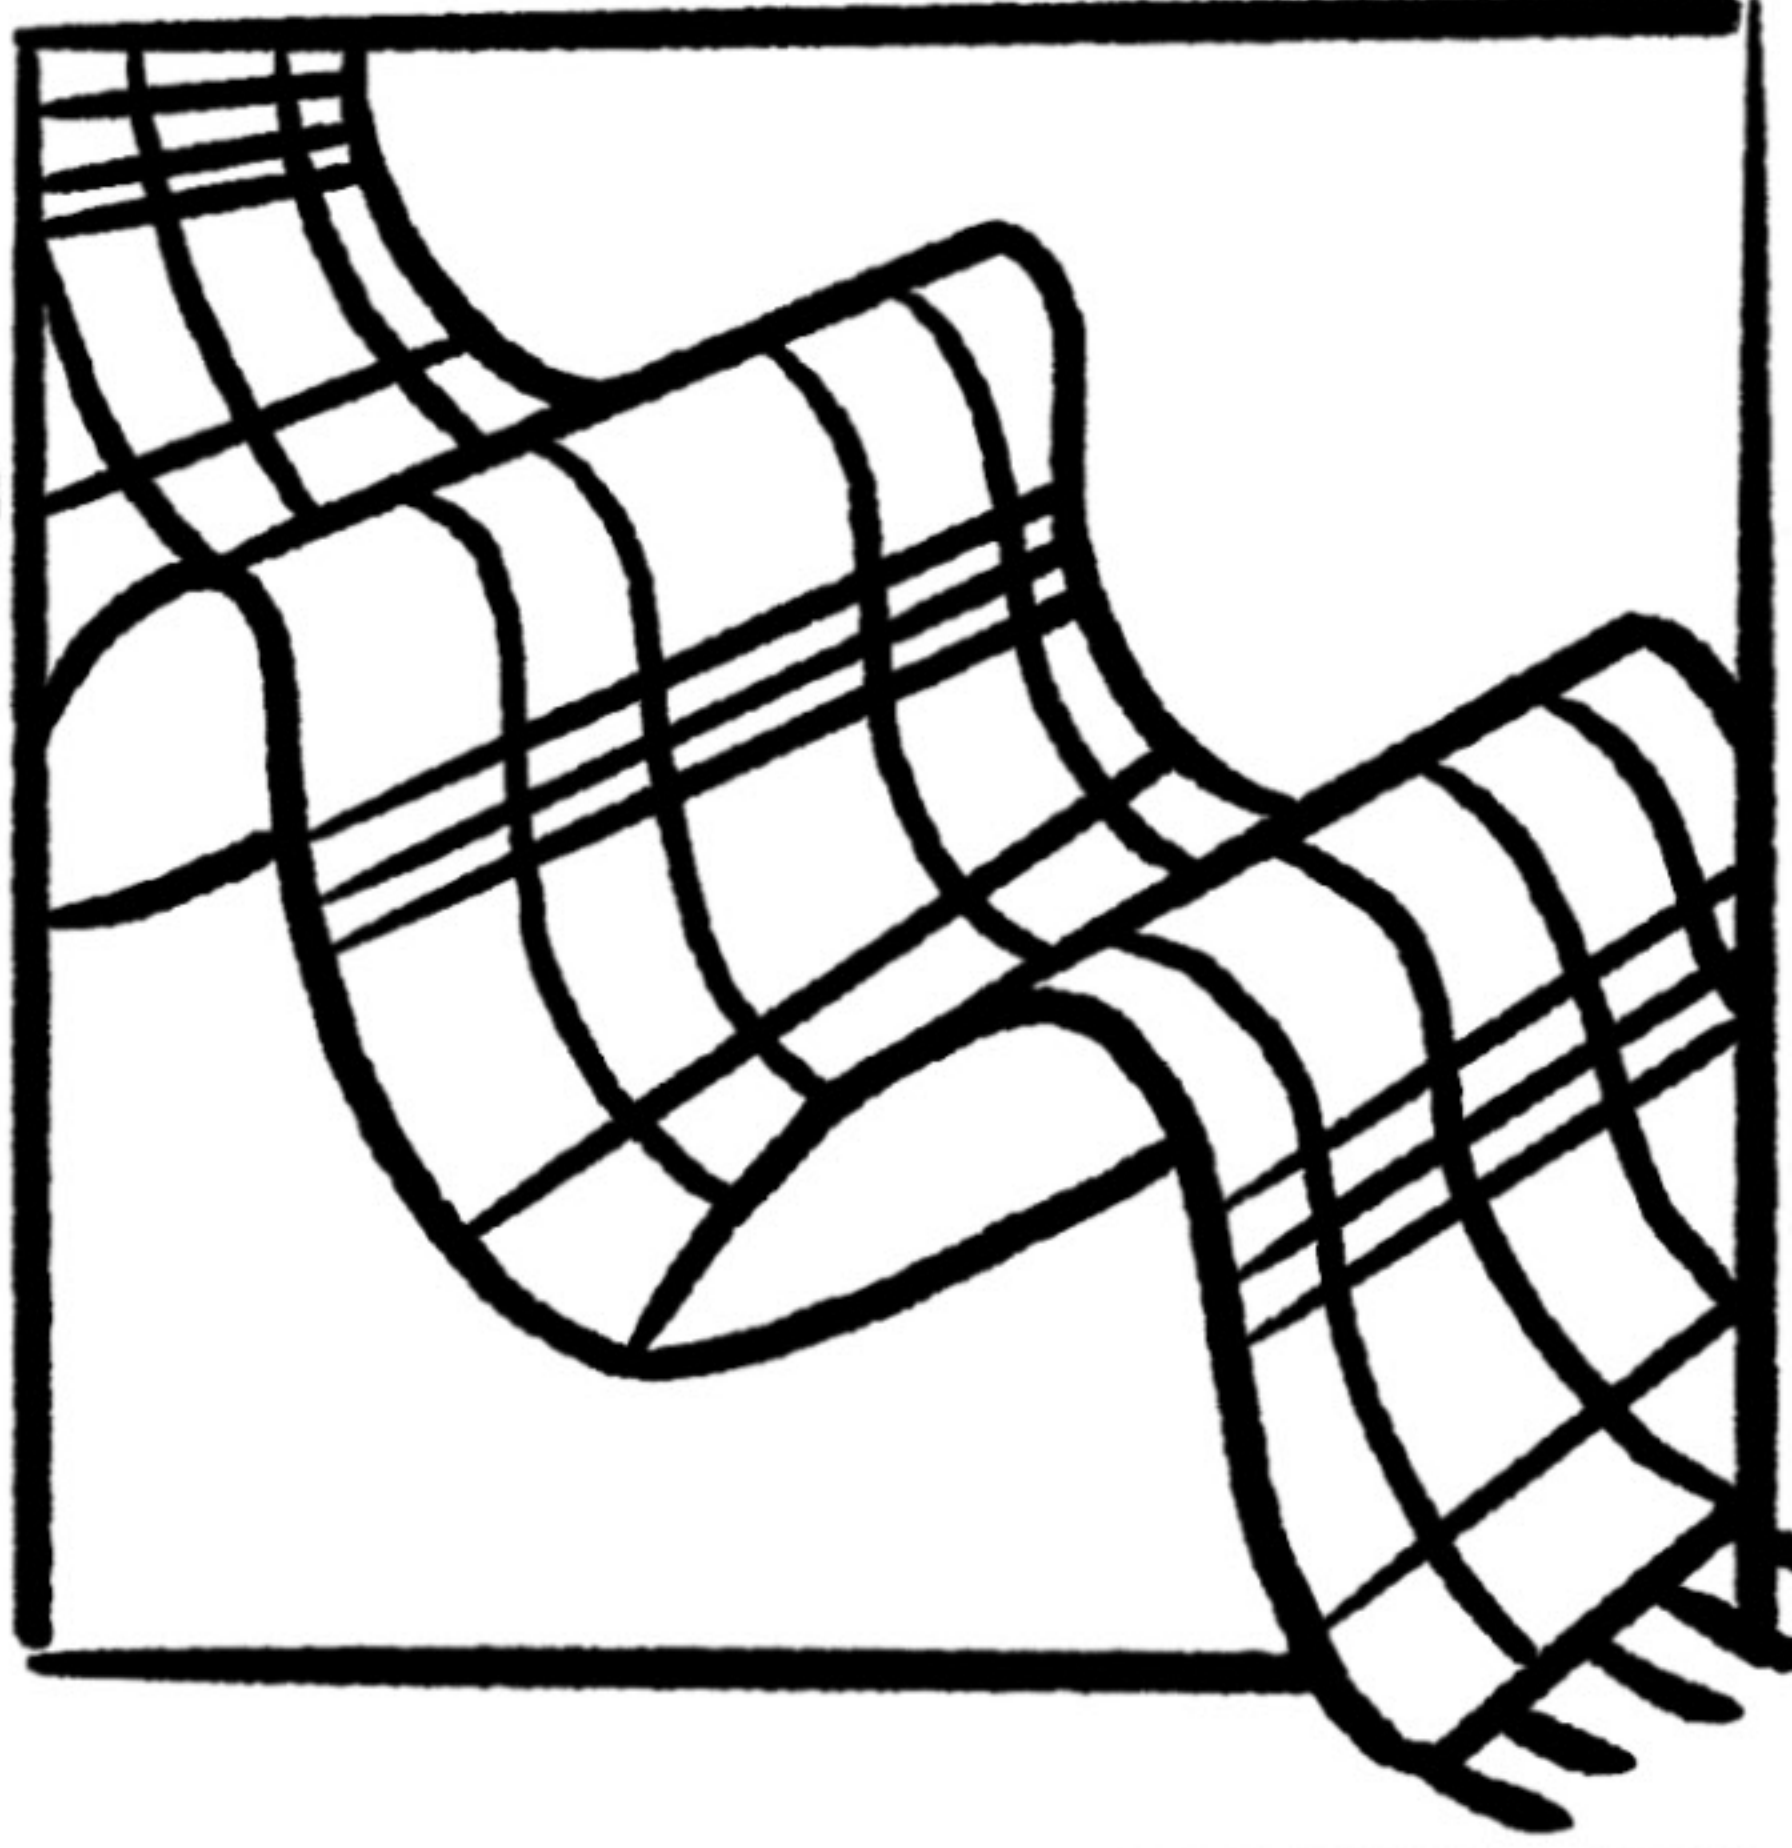

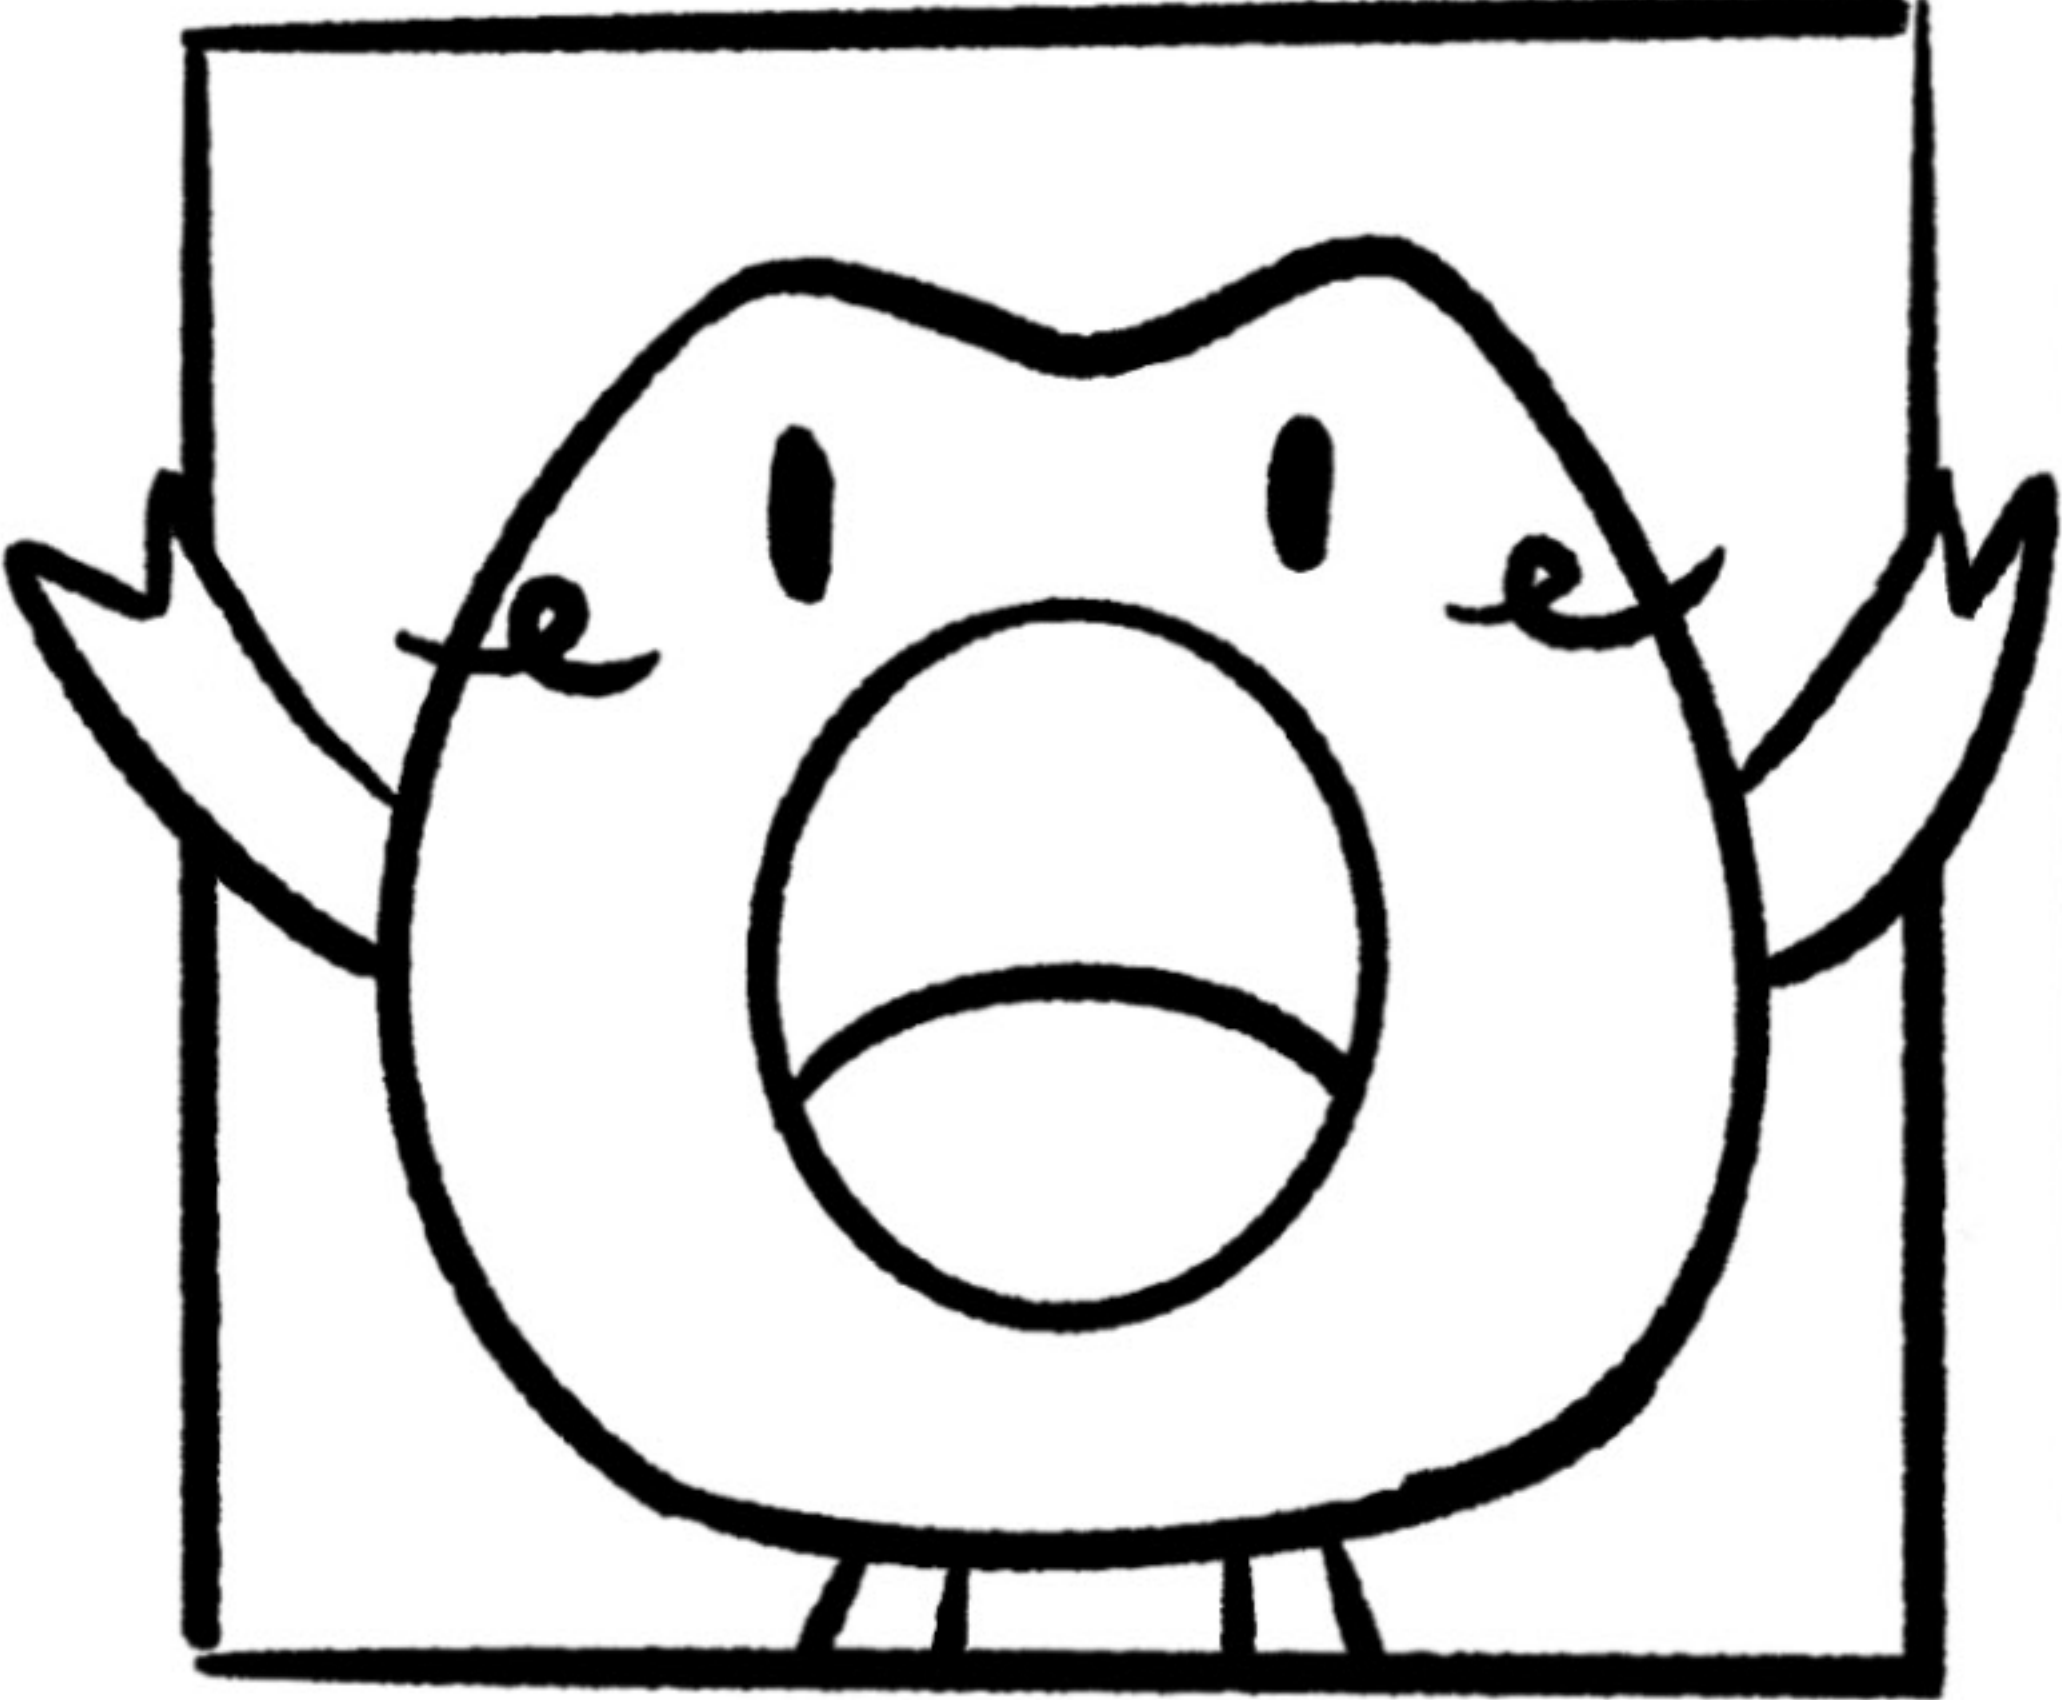

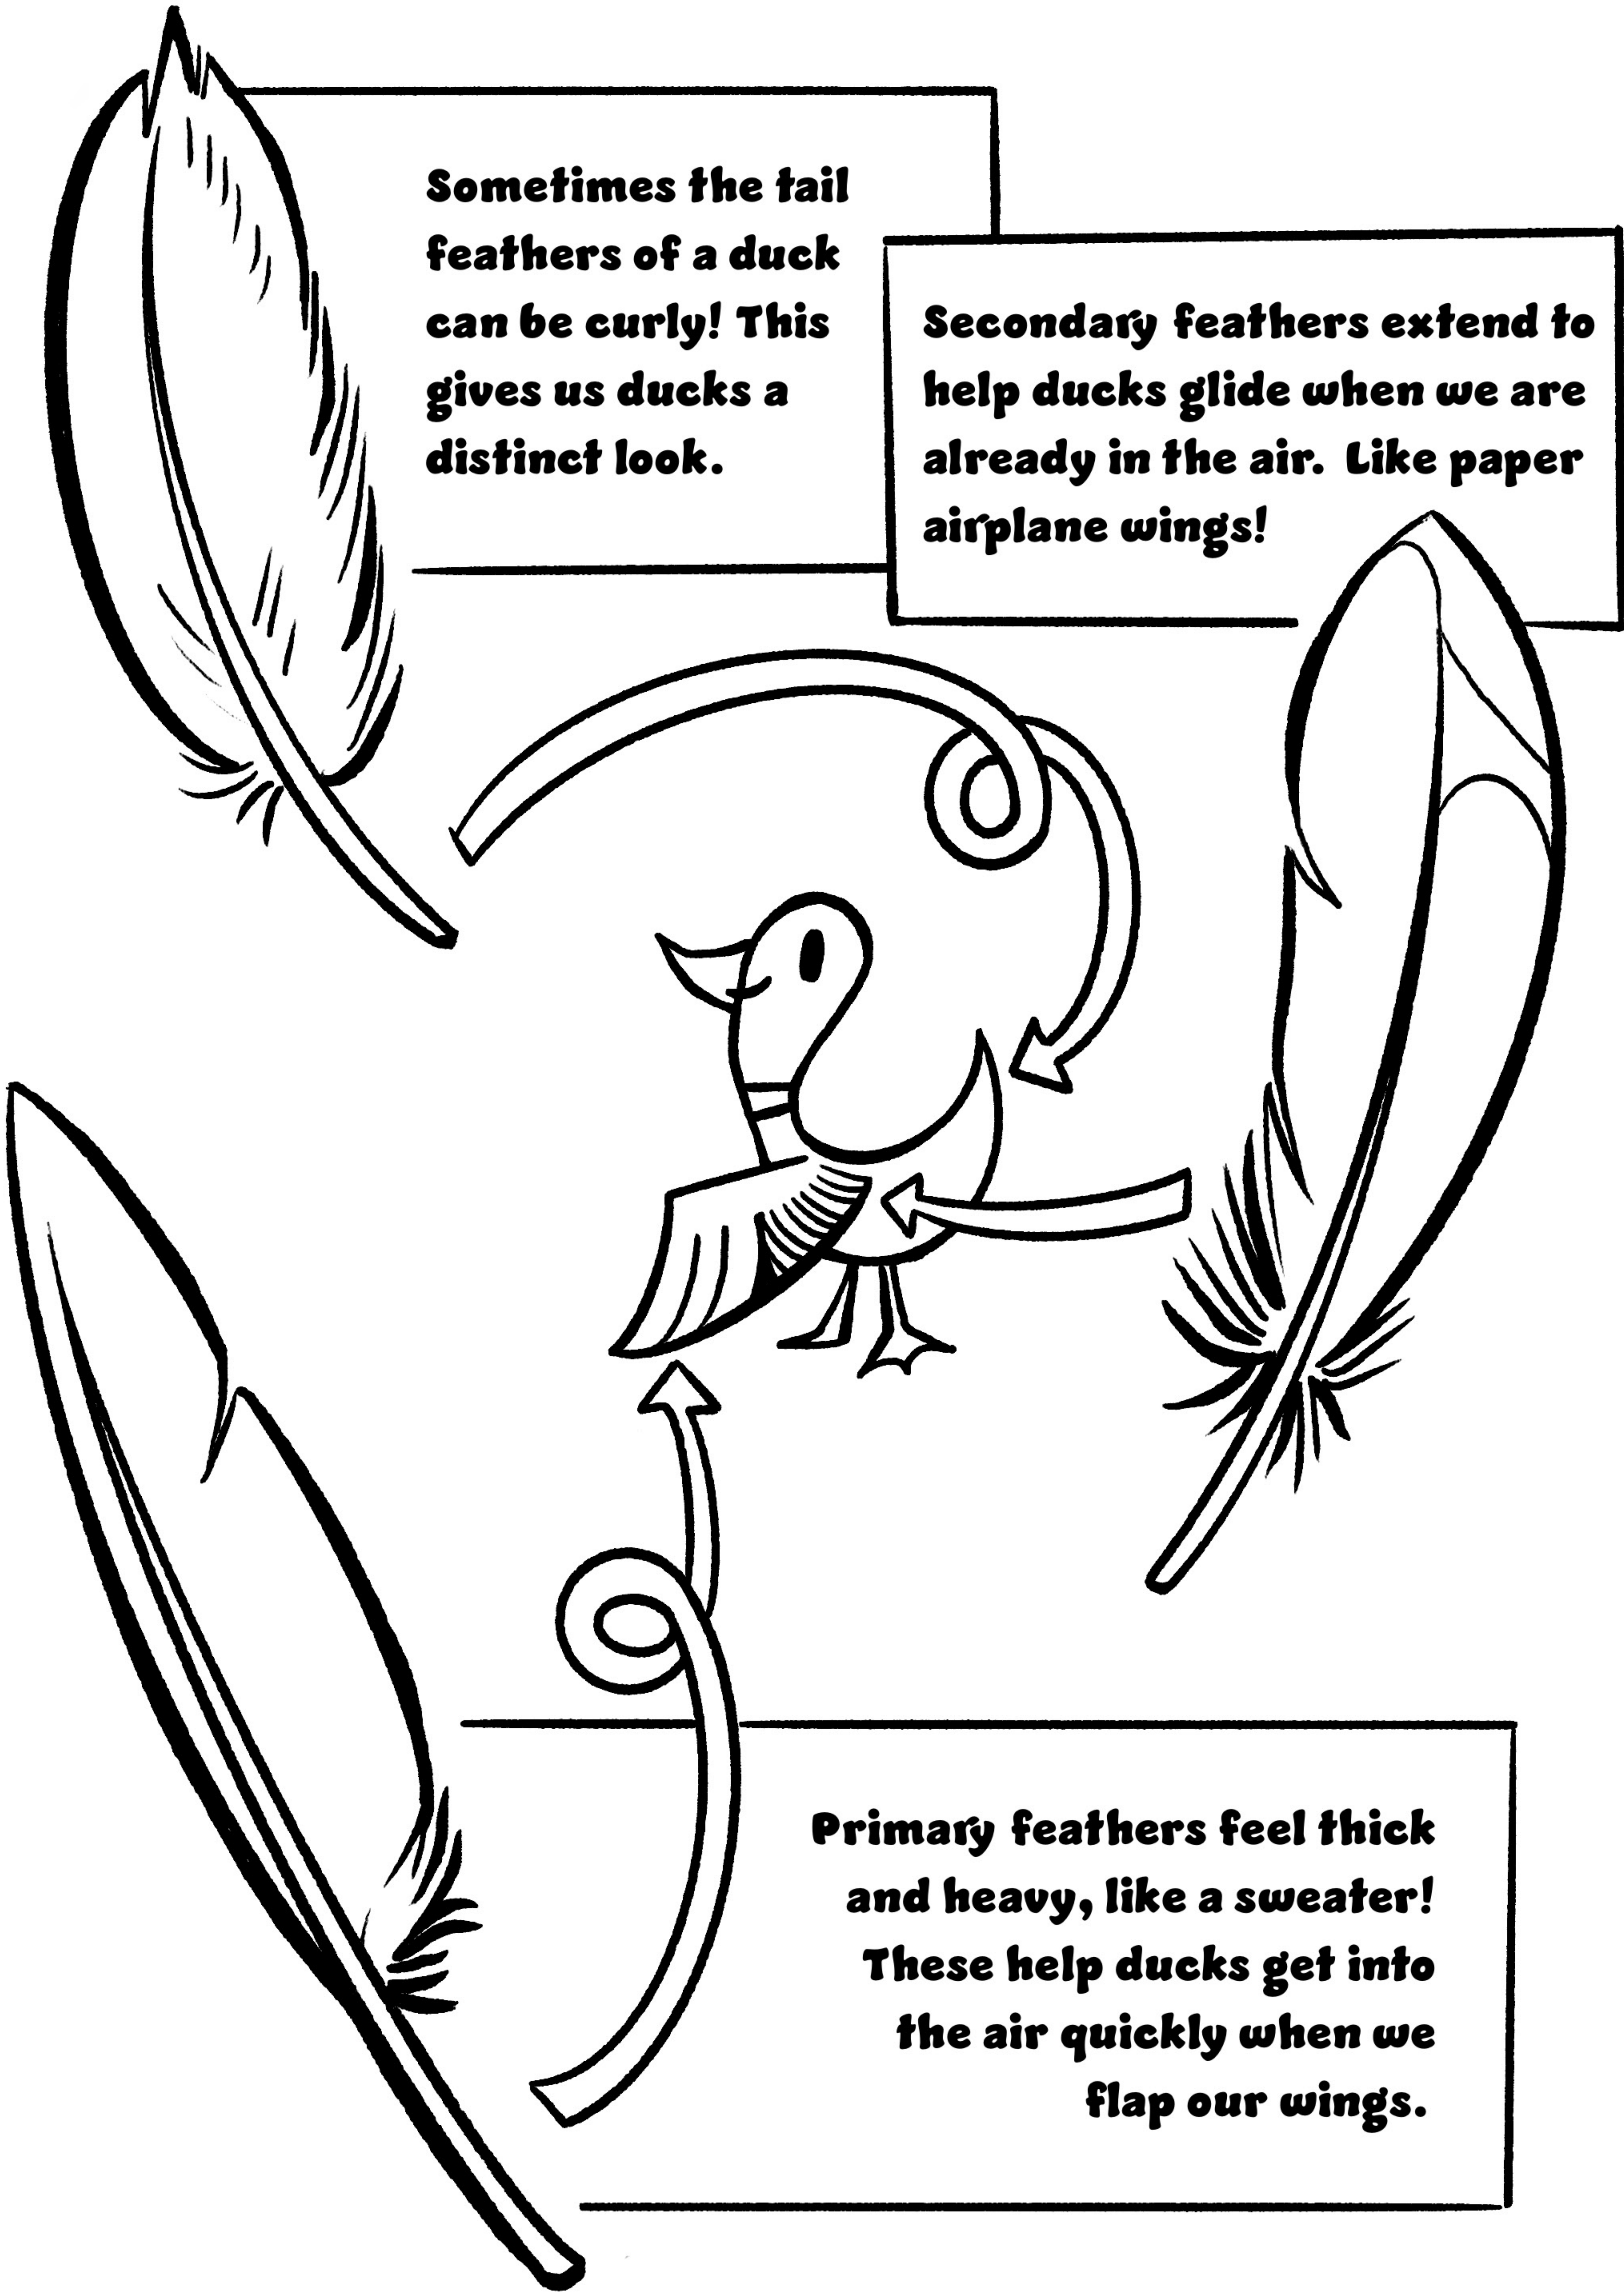

Trace along the dotted lines, color in the drawing and your masterpiece will be complete! Be sure to sign your name below!

Use your imagination to pick the colors for this page. Ducks and frogs look great with bright and happy colors!

Sometimes the tail feathers of a duck can be curly! This gives us ducks a distinct look.

Secondary feathers extend to help ducks glide when we are already in the air. Like paper airplane wings!

Primary feathers feel thick and heavy, like a sweater! These help ducks get into the air quickly when we flap our wings.
